

mesh2GO - The convenient and safe choice

mesh2GO is perfect for tradies and home DIY'ers. The compact 4 x 2m size makes it lightweight and easy to handle, and able to be legally transported on Ute racks.

It is available today from your local Neumann Steel Service Centre.

Feature	Benefit
Compact & convenient	Able to be legally transported on trade racks
Lightweight	Can be handled by one person
4 x 2m size	Perfect for small concreting jobs such as driveways
Comes in four wire configurations	Giving you the choice of product that best meets your needs
Meets ACRS and AS/NZS4671 standards	Along with all Neumann Steel manufactured reinforcing products, you can be assured that you are using only certified steel
